

Full Stack/Frontend Developer Working Student (f/m)

You're a tech student and passionate about working with modern web technologies both on the frontend and backend? You want to gain valuable real-world experience and leave a mark in the healthcare? You'll fit right in with us at Temedica!

At Temedica we develop medical apps for the therapy support of patients and to promote the general health of our users. With the help of innovative digital technologies, we want to improve medical care and bring the patient back into focus.

Your tasks:

As a Full Stack/Frontend Developer, you'll be part of our development team and work closely with our product team to build our hybrid native apps. You'll use modern web technologies to develop performant, well-functioning and user-friendly mobile web apps.

This particularly means:

- Work closely with our senior developers to build and improve single page applications and components with Vue.js and backends with Ruby/Rails
- Implement features and improvements for our apps independently and improve your skillset in collaboration with other developers
- Learn from your fellow developers based on regular feedback and code reviews

** The next beer garden and the famous Oktoberfest is right around the corner*

Here's what we offer:

- We are a good-humored international team, located across Europe with our headquarters in Munich* (Germany)
- We trust you from day 1 and your input matters greatly to us every single day
- We host regular team events and provide free drinks, coffee and fruits

What you should bring:

- You have already gained basic demonstrable real-world experience in building real-world web and/or mobile apps with JavaScript
- You have a deep desire to immerse yourself in a product and make it come alive
- Basic experience with Vue.js/React and/or Ruby/Rails would be a huge plus
- You are a team player who is constantly seeking for ways to improve your skills

Job details

- Starting date: ASAP
- Type: Working student
- Location: Munich
- Languages: English, German (huge plus)
